1. **INTRODUCTION**

1.1 Following President Cyril Ramaphosa’s declaration of Covid-19 pandemic as a National State of Disaster; the Department of Small Business Development (DSBD) has identified SMMEs and Cooperatives as essential Contributing Partners in assisting the Country to combat this national and global pandemic.

1.2 Government has prioritised securing essential products and services from all the critical stakeholders nationally in urgently dealing with this imminent threat that the Nation is faced with. DSBD is currently implementing swift interventions to support small businesses that manufacture these critical essential products such as hygiene, medical and food items and related support services businesses.

1.3 This is a call out therefore, it is meant to target ONLY currently owned Manufacturing South African Small Businesses (as Defined in terms of the National Small Business Act 1997) Nationally that are already manufacturing these products and or are providing the services as outlined in the document.

1.4 Your urgent assistance in availing and sending DSBD your Company Information for consideration in participating in producing the necessary goods and services will be highly appreciated.

2. **OBJECTIVES**

2.1 The DSBD requires essential services and all the identified products and services for the South African public including state institutions such as hospitals, clinics, schools and other essential places to:

2.1.1 Reduce the risk of transmission of COVID-19;

2.1.2 Protect the health of the public, vulnerable members of society and employees of health Institutions and

2.1.3 Ensure adequate availability of these products to pharmacies, hospitals and related key sectors.

3. **SCOPE OF WORK**

3.1 The products/services are categorised in Table 1 below as follows:

3.1.1 Manufacturers of approved Medical PPE Products;

3.1.2 Other Critical related Hospital / Clinics services / Critical Makeshift Structures.

3.1.3 Medical Repair / Refurbishments/ Maintenance Critical Equipment’s Suppliers and

| 1  | **Face Masks Type 1**: Single Mask without eyeshield, single use Bacterial filtration efficiency, latex content, classification and type | a) The mask should be made from four layers of fabric and pleated horizontally with three pleats.  
b) Have four tie backs for fastening to head.  
c) Fit a wide range of face shapes and sizes to permit easy breathing | DOH Specs |
| 2  | **Face Masky Type 2**: Particulate filtering half mask: Disposable Particulate filtration respirators used for protection against airborne diseases such as tuberculosis | a) Must cover the chin, mouth and nose; it may/ may not have an exhalation valve  
b) The particulate filtration respirator must not disintegrate during continuous or intermittent use in a 12 hour work day.  
c) Parts of the particulate filtration respirator that are more likely to come into contact with the wearer must be hypo-allergenic.  
d) Filter performance must meet standards relevant to the specific respirator classification.  
e) The respirator must have an adjustable/self-adjustable head harness which ensures ease of donning or removal of the respirator.  
f) The particulate filtration respirator shall have a filtration efficiency.  
g) The particulate filtration respirator shall have the equivalent of an external hydrophobic fabric layer for droplet protection | DOH Specs |
| 3  | **Apron**: Apron, plastic, full body, single use No-noise smooth plastic material | a) Length from neck: not less than 110cm  
b) Width: not less than 65cm  
c) Thickness: 25 micron  
d) Ties length: not less than 50cm  
e) Ties width: not less than 5cm  
f) Each Colour: BLUE/ YELLOW/ LIGHT-GREEN/RED | DOH Specs |

The products should be Locally Manufactured Sanitizer (500ml), Disinfectant; Chlorine, Ventilators - NIV Ventilators – CPAP and All the relevant certification of products attached
3. REQUIREMENTS

3.1 CIPC Incorporation documentation
3.2 Company Statutory Documents – Relevant Accreditations Certificates, CSD Report
3.3 FICA documents – Proof of Business Address, Lease Agreement or Proof of Ownership
3.4 ID Copies of Directors
3.5 6 months Bank Statements
3.6 Latest Annual Financial Statements from date of Submission
3.7 Business Profile - Clearly stating the products and or services including track record
3.8 Production Facility Output and Capacity – Production Plan 12 Months. Breakdown of no of Employees, Equipment’s/ Machinery and related Capacity.

NB Historical performance of the Business in relation to output is critical and important.

DSBD reserves the right to vet all documentation and information that you will be submitting to validated and ensure that company experience is relevant and as well as the ability to supply or perform.

4. THE DSBD OBLIGATIONS

4.1 The DSBD Project Manager will serve as the contact person on all matters relating to the project;
4.2 The DSBD Project Manager will review, evaluate and approve the services provided by the Supplier
4.3 The DSBD will supply all reasonable, relevant, available data and information required and requested by the Supplier for the proper execution of the services and such assistance as shall reasonably be required by Supplier in carrying out their duties under this contract.

5. SUPPLIER’S OBLIGATION

5.1 The Supplier undertakes to act as an independent contractor in respect of the work;
5.2 To work closely with the Project Manager responsible for the project in the DSBD;
5.3 The Supplier must exercise all reasonable skill, care and diligence in the execution of the work and shall carry out their obligation in accordance with professional standards;
5.4 The Supplier must in all professional matters act as a faithful advisor to the DSBD as well as respecting the laws and customs of any country and provinces in which any business in relation to the project is conducted;
5.5 All information availed to the Supplier in the course of the project must be deemed confidential and will remain the property of the DSBD;
5.6 The Supplier must plan and provide for all possible risks that may affect the delivery of the project on time and indicate what mechanisms are in place to manage such risks.
